Profile Summary

Full-Stack Software Engineer with 1.11 years of experience building scalable web applications and **RESTful APIs** using **Angular**, **Vue.js**, **NestJS**, **Node.js**, **ASP.NET**, and **TypeScript**. Experienced in developing responsive user interfaces, reusable frontend components, secure backend services, and data-driven healthcare applications. Strong expertise in object-oriented design, database management using **PostgreSQL** and **MySQL**, API integration, and delivering reliable software solutions in **Agile** development environments.

Technical Skills

Languages: TypeScript, JavaScript, SQL, HTML5, CSS3
Frontend: Angular, Vue.js, Nuxt.js, Ionic Angular, Tailwind CSS, Bootstrap, PrimeNG
Backend: NestJS, Node.js, ASP.NET, RESTful APIs, Prisma ORM, TypeORM
Databases: PostgreSQL, MySQL, Database Design, Query Optimization
Testing & Quality: Unit Testing, Integration Testing, API Testing, Code Reviews
Tools: Git, GitLab, Postman, Swagger, Docker, DBeaver, Jira

Work Experience

Finstein Advisory LLP – Chennai, Tamil Nadu **July 2024 – June 2026**

Full-Stack Software Engineer – Healthcare & Enterprise Applications

- Designed and enhanced a Doctor Payroll Management System using **Angular**, implementing complex business logic for salary calculations, incentives, deductions, and doctor payouts to improve payroll accuracy and operational efficiency.
- Developed scalable and reusable **Angular** components using **TypeScript**, **PrimeNG**, **HTML**, and **CSS**, improving application maintainability and delivering consistent user experiences across multiple enterprise modules.
- Built and maintained enterprise applications integrated with **SAP** using **Vue.js**, enabling workflow automation, real-time data synchronization, and efficient business operations.
- Developed responsive and interactive dashboards using **Vue.js**, **Nuxt.js**, **Tailwind CSS**, **Chart.js**, and **D3.js** to visualize operational data and improve business reporting.
- Developed and integrated **RESTful APIs** using **NestJS** and **Node.js**, enabling secure communication, efficient data handling, and seamless integration between frontend applications and backend services.
- Contributed to the development of an AI-powered Clinical Data Management Platform using **Vue.js**, **Nuxt.js**, **Node.js**, **Prisma ORM**, and **PostgreSQL**, supporting medical-image management, clinical evaluation, data labeling, and quality-control workflows.
- Implemented medical-image upload, visualization, annotation, and processing features for **DICOM** images, enabling accurate clinical data labeling and supporting the creation of high-quality datasets for machine-learning models.
- Worked on **AI-assisted medical-image analysis** features that generated actionable insights from scan data to support clinical evaluation and healthcare decision-making.
- Designed and optimized **PostgreSQL** and **MySQL** database schemas, queries, relationships, and indexes to improve application performance and maintain data integrity.
- Integrated **AWS S3** and **Azure Blob Storage** for secure medical-image and document storage using **pre-signed URLs** and scalable file-management workflows.
- Improved application security by addressing vulnerabilities related to authorization, session management, access control, and API security based on **VAPT** findings.
- Collaborated with frontend, backend, QA, AI, and product teams in **Agile** environments, participating in code reviews, API testing, debugging, and feature delivery.

Internship Experience

Finstein Advisory LLP – Chennai, Tamil Nadu **1.5 Months**

Mobile Application Development Intern – Ionic Angular

- Completed a 1.5-month internship in Mobile Application Development using **Ionic Angular**, gaining hands-on experience in building responsive and cross-platform mobile applications.
- Developed reusable mobile UI components using **Ionic Angular**, **TypeScript**, **HTML**, and **CSS**, and gained experience with Angular services, routing, reactive forms, **REST API** integration, debugging, and application testing.

Education

Sri Ramakrishna College of Arts and Science **2021 – 2024**

Coimbatore, Tamil Nadu

Bachelor of Computer Science with Cognitive Systems
